EXPERIENCE

Founder & Operator — ShauryaStrings Racket Stringing

2024 – Present

Self-employed · Kitchener, ON

- Identified a service gap in the local tennis community and launched independently with zero startup capital
- Completed 150+ racket stringing jobs; reinvested profits into a self-directed stock portfolio that grew to \$1,500+
- Managed all client intake, pricing, turnaround, and quality control alongside full academic and athletic commitments

PROJECTS

cryOS – Intelligent Baby Nursery OS

JAMHacks 10, 2025

React · TypeScript · Python · FastAPI · scikit-learn · Librosa · Tailwind CSS

- Built at JAMHacks 10 (University of Waterloo, 24-hour hackathon): classifies infant cries — hunger, pain, discomfort — in real time via hardware microphone audio
- Trained a Random Forest classifier achieving 98% accuracy on a held-out test set across cry categories; extracted audio features with Librosa and deployed via FastAPI
- Designed a React + TypeScript dashboard with live audio upload and instant classification output
- GitHub: github.com/tennisbyshaurya-crypto/cryOS

Arduino Line-Following Autonomous Car (In Progress)

2025 – Present

Arduino · IR Sensors · Embedded C · Feedback Control

- Self-initiated: building an Arduino-based prototype using IR sensors to detect white lane markers and autonomously correct steering in real time
- Implementing a feedback control loop that continuously reads sensor input and adjusts motor signals to maintain straight-line travel
